INTRODUCTION

This report contains statistical information related to the California-Arizona citrus industry and selected data regarding other citrus producing areas.

To maintain comparability among the various citrus areas in the United States, the statistical series are taken from sources published by the Federal and State Agencies whenever possible. These sources may be different from the records maintained by the industry for the same data series due to differences in collection procedures.

Government sources are supplemented by the California-Arizona Citrus League and other industry records, for information not gathered by the government agencies.

This statistical information is presented without analysis.
